THE DAILY SENTINEL.

PROPRIETORS.
Under the Name and Firm of Rufus King & Co.

MILWAUKEE:
Tuesday Morning, June 9.

Shipments from Milwaukee.

The shipments from Milwaukee of Flour and Wheat, to the 8th instant, amount, as will be seen from our Weekly Review, to 104,658 bbls. of flour and 937,941 bushels of wheat, against 55,807 bbls. flour and 418,502 bushels wheat, for the same period last year. The increase is more than 100 per cent. The aggregate, reducing flour to wheat, is 1,461,281 bushels of wheat, worth, at present prices about *two millions of dollars*. A pretty good show for a single Wisconsin port.

MILWAUKEE & SUPERIOR R. R.
Air Line to Fond du Lac.

The readers of the *Sentinel* must, by this time, be pretty well informed as to the progress and prospects of the several Railroads leading from this city, Southwardly, Southwesterly, West and Northwest. Many of them, however, are doubtless as uninformed as to the condition of two other important Railway projects, of which this city is the starting point, as we were until Saturday last. We refer to the Milwaukee & Superior and the Air Line Roads, of which we have had something to say, as to their organization, &c., within the past two or three months, and propose to speak more at length and from personal observation, to-day. On Saturday, in company with several of the officers of the Milwaukee & Superior R. R., we drove out into the country, through the towns of Milwaukee and Granville, in this county, and Mequon and Cedarburg, in Ozaukee county, to note the progress which has already been made in grading this new road. For between four and five miles out, the Milwaukee & Superior R. R. follows the track of the La Crosse Road, and then diverges to the North, running up the valley of the Milwaukee, on an almost perfectly straight line, to Mequon and Cedarburg, and thence, by way of Ozaukee, Sheboygan and Manitowoc, to Green Bay. Our first surprise was to see the advanced state of the work and our second to note the beauty, fertility and well-settled and well-cultivated appearance of the country which the road traverses. Along the line of the Green Bay and Fond du Lac Plank Roads, as far as we drove out (some 18 miles) the houses stand so close together as almost to look like a continuous village; while the teaming, even in the present dilapidated condition of these Plank Roads, is heavy and uninterrupted. The great majority of the inhabitants are Germans, with, here and there, a Yankee, or an Irish settlement. The farms are well-cleared, substantially fenced and under excellent cultivation; the barns are strong and spacious; the farm houses look neat and snug, while nearly all have inviting gardens and orchards about them; and the crops in the ground promise luxuriantly; the winter wheat standing thick and strong, dressed in living green, and the spring grain coming forward finely. Indeed, we know not where to find, within a circuit of twenty or thirty miles from our city, a region of country so thickly settled, and wearing an air of so much thrift and comfort, as that which borders and will feed the Milwaukee and Superior R. R.

MEQUON and THIENSVILLE, within less than a mile of each other, are smart and pretty villages, and at the Hotel of the former the hungry traveller can always find a cleanly-served and well cooked meal, and will be waited upon by a rosy-checked, smiling and attentive *fraulein*. CEDARBURG, five miles beyond Mequon and connected with it by an excellent gravel turnpike, wears the neat and attractive look of a New England village. It seems to be well-to-do in the world, and shows signs of growth and improvement. Among its more striking features is the spacious and substantial flouring-mill of Messrs. HILGEN & SCHROEDER, founded on the solid rock and built, seemingly, to endure for ages. It is 72 by 42 feet, on the ground, and six stories high, with a wing 35 feet square. The walls are of stone, three feet, or more, in thickness, and the posts, girders and timbers are of solid white oak. It has three run of stone, in constant use, and two more are soon to be added. Cedar Creek, on which the mill stands, furnishes abundant water, all the year round, with 15 feet fall. The flour made at this mill is a favorite brand in our market. Cedarburg is the residence of our old acquaintance, FRED. HORN, so long a prominent actor on the political stage. He has a delightful residence, and extends a cordial welcome to visitors.

Within two miles of Cedarburg the Cedar Creek furnishes no less than five excellent water-powers, three of which are yet unimproved; while the Milwaukee river, hard by, supplies two more. These must be the centres of manufacturing industry, which will contribute largely to to the traffic of the Rail Road. The local travel, too, along this line, must be very great and constantly increasing; for the country is capable of supporting, as it will be sure to attract, a dense population. Beyond Cedarburgh, through Grafton, Ozaukee, Belgium, and up to Sheboygan, the same characteristics prevail, and must ensure to the Milwaukee & Superior Railroad, a larger local traffic and travel than any other road we know of in this State.

Such is the character of the country which this road traverses, and now a few words about the road itself. The Milwaukee & Superior R. R., as our readers may remember, takes the place of the Lake Shore Railroad, north of Milwaukee; connecting with Green Bay, by the way of Ozaukee, Sheboygan and Manitowoc. The Company having the work in charge have pushed ahead vigorously under the new organization.—They have upwards of 150 men employed; about six miles graded; the rails, ties, chairs and spikes requisite for the first section of the road (to Cedarburg, 18 miles,) bought and in process of delivery; locomotives and cars contracted for and now on their way to this city; and everything in such a state of forwardness that, without some unforeseen contingency, they will finish and open the road to Cedarburg by the 1st of November next. Beyond this point it will be prosecuted as rapidly as means can be obtained.

At, or near Cedarburgh, the Air Line road to Fond du Lac, which follows that far the same route from this city with the Milwaukee & Superior R. R., diverges to the North West, taking a "bee line" for Fond du Lac. The Air Line is an entirely separate organization from the Milwaukee & Superior R. R. Its stock agents are now busily at work and with good success, in taking up subscriptions along the line; its engineers are in the field and have nearly completed their surveys; and its officers hope to commence work within a short period. The distance from Cedarburgh, through West Bend, to Fond du Lac, by the Air Line road, will be about 42 miles; making the whole distance from Milwaukee to Fond du Lac 60 miles. This is 25 miles nearer than by the Chicago, St. Paul, & Fond du Lac and the La Crosse & Milwaukee roads, and must always give the "Air Line" a decisive advantage over any competitor for the trade and travel of the Northern Section of our State. At Fond du Lac it will connect with the N. E. Land Grant road, and as it will offer by far the speediest, shortest and cheapest route, not to Milwaukee only, but to all the Lake Shore cities, Chicago inclusive, it must become the main thoroughfare to and from Fond du Lac, Oshkosh, Menasha, Neenah, Appleton, Green Bay, the Pineries adjacent and the Lake Superior Country, north.

It only remains to add that both these roads, the Milwaukee & Superior and the Air Line, are favorite projects with those who have studied the Railway capabilities of Milwaukee; that they are under good headway; and that they only need a little of the "aid and comfort" so liberally extended to other enterprises of the same character, to be placed on a substantial basis and ensured a speedy and successful consummation. We commend them to the notice of our readers, as deserving their good will and substantial encouragement, and as certain to swell still higher that tide in our affairs, which we have taken at the flood and which is fast bearing Milwaukee on to fame and fortune.

What the Democratic Church regards as Heresy.

The *News* continues its efforts to mis-represent the political character and opinions of the St. Louis *Democrat* and to make the public believe that it is an unreliable and anti-Democratic paper. To make out a case the *News* ventures upon specific charges, of which the following is the gravest:

> From the year 1850 to the present time, the journal in question has been known and regarded as a renegade from the National Democratic Organization; and though it gave to Mr. Buchanan a passive support, its object was to win voters to the *heretic standard* of Frank Blair.

This "heretic standard" was the standard of "Free Soil and Free Labor," for Missouri, as well as for Kansas. "National Democracy," according to the *News*, is opposed to these doctrines and therefore the Missouri *Democrat*, which advocates them, is denounced as a "renegade," and Frank Blair, who was elected by the MECHANICS and WORKING-MEN—the *free white laborers* of St. Louis—to uphold and defend them in Congress, is stigmatized as a "heretic!" We have it, therefore, "officially" proclaimed by the *News*, a Federal organ, that opposition to Slavery, extension and advocacy of Free Soil and Free Labor, in Kansas and Missouri, is regarded by the "Democratic" Church, as "*heresy*," and will be punished as such, by the excommunication of the offender.

As to the idea of the *News* that whenever a press, or a member, of the Democratic body becomes "rotten," the opposition take it up and make much of it, we have only to say that had this been our rule of action we should long since have appropriated the *News* and "the Forty" notorious gentlemen to whose service and fortunes it is devoted. And the cool intimation that "the poorest intellect the Democracy ever "throw overboard has been esteemed good "enough to lead the opposition," sounds refreshingly impudent in the organ of a party whose leaders are mainly renegade Federalists, recent Whigs and recreant Free Soilers—political soldiers of fortune, ready to serve any party for pay, and to sell any principle for plunder.

Minnesota Election.

The Chicago *Tribune* of yesterday brings us the following good report from Minnesota, which we hope to hear confirmed:

> Since writing the above, we have seen Mr. Hanscome, of Boston, who has been on an excursion to Minnesota for a few weeks past, and left St. Paul on the 4th inst. He arrived in this city on Saturday, and brings later news than any heretofore received. He says that the Republicans have elected 58 delegates, and the Democrats 46, leaving four in doubt, which secures a reliable working majority in the hands of the Republicans. This is most glorious news, and better than we anticipated, in the face of the tremendous frauds perpetrated by the Buck Africans.

EDITORIAL CONVENTION.—The Editors and publishers of Wisconsin favorable to the formation of an "Editorial Union," will meet at Portage City, on the 9th of July 1857, for the purpose of transacting business of importance, and adopting such rules and rates as may be agreed upon. Please notice.

We find the above "call" in the Horicon *Argus* and very cheerfully "second the motion."—Let us have an "Editorial Union" and *reunion* by all means.

ANOTHER ARCTIC EXPEDITION.—It is now certain that a new expedition is to sail from England to search for Sir John Franklin and his companions, or their remains. It is in vain that the British Government have officially given up the search, and consider the party as lost from the roll of the navy; in vain that twelve expeditions have gone at an immense expenditure of money, and returned after years of suffering and loss of valuable lives—the yearning love of Lady Franklin tires not, and she has devoted the remains of her fortune to another search. Call her long persistence in the one object of her life, for years, against the advice of friends, the opinions of practical and scientific men, and the dictates of ordinary reasoning—call it a monomania if we will, there is no heart that will not respond to the following sentiments, uttered by the N. Y. *Mirror*, on the subject:

> No true man will look harshly upon Lady Franklin's new expedition. Her ship will go forth freighted with the good wishes of the civilized world. It will be accompanied by the heart-felt prayers of many a Christian matron, who loves and reverences her husband next to her God, and compared with whose pious devotion life itself weighs but as a feather. No one can look without emotion upon a woman, laying down all, that like the holy woman of Judea, that she may follow him whom she loves. There is a tender chivalry in the act which links the name of Lady Franklin with that of Florence Nightingale. In the white glimmer of the sails of this last rover in the Arctic Sea, we see a reflection of that womanly devotion and faith, which is stronger than logic, or the solid columns of armed men. Nor can we measure such enterprise by the principles of utilitarianism; there is a surplus of educated energy which can find no better vent than such an expedition; and whether it be fertile or barren of scientific discovery, it is dictated by a nobler ambition than that which fills the Courts with diplomatists, or strews the Crimea with whitened bones. Every such mission makes the world wiser and better.

PEARLS IN THE OHIO RIVER.—The Cincinnati *Times* states that Mr. DAVID H. SHAFFER, of that city, a devoted Naturalist, has often found pearls in the muscles inhabiting the Ohio river, but they were so small that he did not think it worth while to search for them. The shells of the muscles, however, were found susceptible of high polish, and in other countries where he has sent them in exchange for others, they have been greatly admired. Since the discoveries of pearls in New Jersey, he has made closer examinations of the Ohio river muscles, and found several large and beautiful ones. One white oblong cone-shaped pearl is nearly half an inch long, and another an oval, half an inch long and one-third, in breadth; brilliant purple in color.

ARRIVALS AT QUEBEC.—The Toronto *Globe* publishes a table giving the number of arrivals at Quebec to the 29th May for five successive seasons. In 1854 the number was 237, with a tonnage of 110,682, but the number fell off largely for the next two seasons. This year, however, the number is 289, and tonnage 180,735.

The number of passengers arrived this year is 6,223.

REGATTA OF THE N. Y. YACHT CLUB.—The annual Regatta of the New York Yacht Club took place on the 4th inst. The Julia won the first, the Una the second, and the Edgar the third prize, while an outside prize was awarded to the Widgeon. The Julia, Una and Edgar, were all built by the late George Steers.

RAILROAD RIOT.—A second fight occurred Saturday, between the contractors and laborers on the Racine & Mississippi R. R., near Medina, Winnebago Co., Illinois. The citizens had to arm themselves. Two men were killed and a number wounded. Much excitement still exists.

COLLECTOR AT SHEBOYGAN.—JAMES T. KINGSBURY has been appointed Deputy Collector at Sheboygan, *vice* MICHAEL LYNCH, "rotated."—The Evergreen City *Times* speaks of the appointment as a good one.

ICE MOUNTAINS IN JUNE.—The Buffalo *Commercial* says that on the 3d of June, there were still great masses of ice below Niagara Falls, on the American side, so hard that rocks thrown upon it made no impression.

THE GRAIN TRADE IN OUR TOWN.—We have not time to ascertain from our numerous produce dealers, the aggregate amount of produce daily sold in this market, but we should judge at least one thousand bushels of wheat, per day, to say nothing of the corn, oat and potatoe trade, which is very brisk, at enormously high prices.—*Ripon Home.*

Fourth of July Celebration—Meeting at the Court House.

In pursuance of a call issued by the committee of arrangements, a large number of the citizens of Milwaukee assembled at the Court House, on Saturday evening, to make arrangements for a proper celebration of the approaching National Anniversary.

The meeting was called to order by Gen. S. B. Grant, Chairman of the Committee of arrangements, who nominated Mr. J. A. Mallory, for Chairman. The nomination having been unanimously sustained by the meeting, Mr. Mallory took the Chair and addressed the meeting in a brief and pertinent manner. Upon motion of Col. John White, Mr. Geo. A. Woodward was elected Secretary.

Upon motion, a committee of five were appointed to report to the meeting the several special committees necessary to perfect the arrangements for the contemplated celebration.

The following gentlemen were appointed such committee: S. B. Grant, John White, A. Bade, John Nazro, H. W. Gunnison.

During the absence of the committee, several appropriate addresses were made.

The committee having returned, reported the several special committees as follows:

Finance Committee.—Gen. Rufus King, John Nazro, J. Taylor, A. Ehlebracht, G. M. Fitzgerald.

Powder and Music.—A. Bach, Edward O'Neil, H. W. Gunnison.

Orators and Readers.—George A. Woodward, Moritz Schoeffler, Hugh McGarry, John White, L. H. Kellogg.

Fire Works.—Capt. Leibhaber, Horatio Hill, Chas. T. Melms, Edward Hayden.

On motion of J. S. Fillmore, Mr. Shultz, Chief Engineer of the Fire Department, was added to the general committee of arrangements.

On motion of Col. John White, Mr. Fillmore was also added to the general committee.

Mr. H. W. Gunnison moved that the general committee have power to appoint sub-committees if necessary.

The meeting then adjourned to meet again at the Court House, on Thursday evening next, at 8 o'clock.

J. A. MALLORY, Pres't.
GEO. A. WOODWARD, Sec'y.

For the Daily Sentinel.

The Man who "Doubted the Last Egg."

MESSRS. EDITORS:—Doubtless many of the readers of the *Sentinel* remember the anecdote told by T. W. BROWN, in his address to the Republicans in this city, last autumn, of the man who "had his doubts about that last egg." Well, that *veritable* man is in this city, and all who desire to see this notable, may have the pleasure. He is fond of notoriety, and bears his honors meekly; much more than many who deserve them less. Many, doubtless, have had the pleasure, without the knowledge, of having seen him; as I understand, he attended Mr. Spees' church yesterday, and attempted to interrupt the speaker; and that, in the evening, he attended St. Pauls' church. That short, thick person, with grey eyes, hair and beard, whose dress, like himself, showed the marks of age and travel, is the identical Dr. Alvah Pade, Esq., who *doubted the egg*.

E.

Milwaukee, June 8.

A COMPLIMENT.—The Chicago *Democratic Press* of yesterday pays the following well-deserved compliment to a newly established Banking House in this city:

> Messrs. Reeve & Roe, formerly of Orange Co., N. Y., have established a banking and exchange office at No. 210 East Water street, Milwaukee. Thos. S. Reeve, Esq., was for many years cashier of the Orange County Bank. We have known him long and well, and can assure our friends in Milwaukee that they have gained a most valuable citizen, and the readers of the *Press* generally, that if they have any collections or banking business to be done in Milwaukee, they cannot commit to better or safer men than Messrs. Reeve & Roe.

THE WASHINGTON RIOT.—The N. Y. *Courier & Enquirer* remarks on the subject of the late Washington riot:

> It is no credit to the American party that every election riot, without an exception, which has occurred within the last few years, has been commenced or carried on by their followers. In such affairs they have invariably figured most prominently. A riot, the parties to which are Democrats and Republicans, is a thing yet to be heard of.

ASTOR HOUSE, (N.Y.) BREAD AND BUTTER.—Willis has been breakfasting with Charley Stetson, and thus characteristically does up his bread and butter:

> "It is the peculiarity of Stetson's genius that he expends its energies upon first principles.—He aims to keep a house where you shall breathe better and sleep better than elsewhere—to give you a cup of tea for which the water was more unmistakably at the boiling point—cleaner sheets and prompter answers to your questions—fresher fish and hotter coals for your cutlets—and such rolls, and such May butter, (let me prophetically sigh and say!) as I hope may be equalled only by the cows and ovens of Paradise! Let no man think that he has seen the best of this planet of ours till he has bread-and-buttered with Stetson at the Astor."

From Lake Superior.

Arrival of the Steamer Illinois—Ice in the Lake—Portage City and Marquette Reached, &c., &c.

The steamer Illinois, from Lake Superior, arrived yesterday afternoon. On her upward trip she reached Superior City. We are indebted to her Clerk, Mr. McKnight, for the following particulars:

> The Illinois left here on the 19th of May last. Considerable ice was met with in the Sault river, and a detention of ten days experienced in getting into Lake Superior. Efforts were made to reach Marquette, but they were not successful.—She arrived within thirty miles of that place, and was compelled to abandon the attempt, on account of the solidity of the ice. No ice was encountered from there to Superior City. The harbor of that place was full, and the Illinois was obliged to make her way through some ten miles of it. The ice varied in thickness from six inches to four and five feet, and occasionally whole fields would be met in which the ice had accumulated to a thickness of not less than ten to fifteen feet. This was caused by the driving and piling up of drift ice, occasioned by the heavy winds that have prevailed at times.
>
> On her way down, she made for Portage City, and got into the harbor after a day's labor. Another day was expended in making her way out. She then made an attempt to reach Marquette, and ran through ten miles of ice before she succeeded in getting in. She was there presented with a suit of colors. Leaving there, she was obliged to run over towards the north shore of the Lake to avoid the ice, and got into the Sault river. She met the North Star in the Saut Ste. Marie Canal.
>
> She brought down 100 passengers, and 50 tons of copper, from the Minnesota mine, consigned to the Detroit Smelting Works. She leaves for Lake Superior, again, at 10 o'clock this evening. —*Detroit Free Press, June 7.*

From the Stevens Point Pinery.

The Milwaukee & Horicon R. R.

THE WORLD DOES MOVE: at least in the great West. From the Minnesota papers we see that parties have gone out this spring, exploring and founding towns and cities, from the Father of Waters through to the Red River. The most glowing descriptions are given of the country, its soil, climate, and ten thousand advantages.—A concerted effort is being made to construct a road, and a direct trade from the Red River country, direct to Superior City. The plan will undoubtedly succeed: in which case *Pembina*, and all its dependencies will find its commerce with Lake Superior, in summer; and—look!—with Milwaukee, via the Milwaukee, Horicon & Superior City Railroad, in winter. Wisconsin and especially Milwaukee should see, and fasten its gaze, on the Red River Country, as a legitimate commercial tributary, to its emporium on Lake Michigan.

☞ The Milwaukee, Horicon, Stevens Point & Superior City Railroad, is by far the most comprehensive scheme of the kind in the Great West.

WHERE SHALL WE BUY GOODS?—The trade of this section of the state, has taken a new turn in several instances this spring, several of our merchants having purchased their stocks in Milwaukee and Chicago. We have no doubt that Goods are sold at about as low figures in these cities as in New-York, at least they can be, and when that *is* the case, it is for the interest of our merchants to purchase at home. It is also for the interest of our Milwaukee and Chicago neighbors to bid for this trade.—*Berlin Courant.*

The Fire at Madison.
SIX STORES BURNED!
SUSPECTED ARSON!!

Our city met with a severe and unexpected loss this morning, in the shape of a terrible fire, by which all the buildings on Washington Avenue, from the corner of Webster street up to Bruen's Block were totally destroyed, together with a great portion of their contents. The fire was discovered and the alarm given about three o'clock this morning. When first seen it had broken out in the rear of Foot's Liquor store, from which it spread with almost miraculous rapidity through the whole line of wooden buildings on the block fronting on Washington Avenue. The wind sprung up about the time the fire broke out, and the flames spread with such swiftness that the firemen and citizens on the ground were unable to check them in the least or even to remove much of the property in the several buildings. The names of the principal sufferers are Dudley & Powers, Dane county store, Dry Goods & Groceries; J. H. Foote, Liquor Store; C. T. Flowers, Piano store; Adams & Adams, Hardware store; R. F. Powers, Milinery store; Johnson & Fuller, Daguerreotypists; and a number of offices.

The fire is supposed to be the work of an incendiary. The firemen were promptly on the ground, and worked as only firemen can work; but, in consequence of the lack of water, their exertions were in a great measure wasted. However, but for them, the best portion of the whole city would assuredly have burned up, the flames being beaten off from Bruen's Block and the adjoining buildings only by great and long continued efforts, the cornice of Bruen's Block being on fire a number of times.

We understand that Messrs. Johnson & Fuller lost $2,500; no insurance. Messrs. Dudley & Powers were insured pretty heavily, and all the other stores more or less, except Mr. Power's Millinery store, which, however, sustained little or no loss. A Mr. Webster, painter, lost all his tools and materials, but little in value, but much more than he can afford to lose.—*Madison Journal.*

Closing of the Railroad Celebration at St. Louis.

Our telegraphic dispatches informed the readers of the *Tribune* on Friday morning of the arrival of the excursionists at Vincennes, Indiana, from the east, Thursday morning.

About 12 o'clock Thursday night, the two trains with some 1200 passengers reached the east shore of the Mississippi, where they were welcomed by Mayor WIMER, of St. Louis. Four large steamers were in readiness to receive the guests, a supper was partaken of, and the whole party slept comfortably upon the steamers, which proved more pleasant than would the best hotel accommodations. Friday morning the guests enjoyed a steamboat ride of a few miles up and down the river in front of the city, and at 10 o'clock landed amid the firing of cannon on the levee, and immediately were taken into a procession of some 65 carriages and 52 omnibusses, and were escorted by the different military and civic associations, to the Fair Ground in the suburbs of the city. The houses of the streets through which the procession passed were covered with citizens and hung with flags and banners and other decorations.

Arrived at the grounds about 12 o'clock, several hundred feet of tables were covered with a most bountiful dinner—everything eatable and drinkable that could be desired. Previous to partaking of these bounties, an interesting and eloquent, but rather lengthy and untimely address, was delivered by Hon. Edward Bates, of St. Louis. The spacious amphitheatre of the Fair Grounds afforded ample room to seat the thousands of guests and citizens comfortably.—The press of the country was largely represented: among them were editors and reporters from New York, Boston, Baltimore, Washington, Cincinnati, Nashville, Chicago, Milwaukee, and other cities.

After dinner, a number of toasts were read, and responded to happily by the representatives of the various cities and States toasted. Songs were sung in fine style by the German Singers' Association, and evolutions performed by military, fire and gymnastic companies. The whole affair concluded in a most satisfactory manner to all concerned; the railroad companies and cities along the line doing everything in their power to entertain the guests in an appropriate manner.—*Chicago Tribune of yesterday.*

Pro-Slavery Gags.

ELKTON, Cecil Co., Md., May 27, 1857.

At the April term of the Circuit Court of Dorchester county, Md., Sam Green, a free negro, was tried for having in his possession certain incendiary papers, &c., and thus aiding slaves to escape. It appears that a volume of "Uncle Tom's Cabin," a map of Canada, several schedules of routes to the North, and a letter from his son (an absconded slave) who is in Canada, &c., were found in his house, but for some cause or other the Court held that the law under which he was indicted was not applicable to the case, and he was accordingly acquitted. He was then immediately arraigned upon another indictment—for having in his possession "Uncle Tom's Cabin"—tried, convicted and sentenced to ten years imprisonment in the Penitentiary.

The Programme for Utah.

Washington June 4.

The President has at last fixed upon a Governor for Utah, and one who has indicated his readiness to accept. His name I am not authorized to make known until to-morrow. A number of gentlemen have lately applied for the place.—The policy to be pursued is for the Governor, after reaching Utah, to issue a proclamation that such persons residing in the Territory, male or female, as desire to return to the States, shall receive protection and necessary assistance from the government. This will cause a stampede among the women, and at once blow the Mormon church to atoms, or bring the saints to terms.

EASTWARD, HO!—The tide of travel sets strongly this season across the Atlantic. Never before was there so large a number of passengers taking a run across to Europe. The *Asia*, which sailed on Wednesday last for Liverpool, took 172 passengers; the *Queen of the South*, which sailed on the same day for Southampton and Bremen, took 131 passengers; the *City of Manchester*, which sailed on Thursday for Liverpool, took 240 passengers; and the *Arago*, which sailed on Saturday for Southampton and Havre, took 307 passengers—a larger number, we believe, than was ever carried from this port in an Atlantic Steamer. During the present month fifteen steamers are announced to leave New York for Europe, making an average departure on every other day. Four of these steamers will leave during the present week, and we understand that each will carry a large number of travelers, whose passages are already engaged.

The number of American travelers annually visiting Europe has greatly increased of late years. Prior to 1850 the number never exceeded 7,500 in any one year, and the average number for the ten years previous was not more than 5,000. In 1850, the Collins steamers commenced running, and 29,362 Americans crossed the Atlantic during that year. In 1856, the number of American travelers returning from Europe that landed at this port alone was 16,319.—*New York Times.*

A REFRESHING RAIN.—The crops in this section of the State had begun to suffer for rain, and the farmers to put on long faces, shake their heads, and indulge in various prognostications as to the influence of the Comet, and the singularity of the season. Saturday night came and with it a rain storm which extended with variations through the succeeding three days. All fears of a present drouth have disappeared: the crops look promising, and the farmers happy.—*Appleton Crescent.*

LUMBER BUSINESS OF WAUSAU.—About 153,000 feet of lumber is manufactured at the saw mills, in this village, every twenty-four hours.—Of this quantity, 65,000 feet is made at the mills of W. D. McIndoe; 35,000 feet at the mills of G. N. Lyman; 35,000 feet at the mills of D. A. Barnes, and about 18,000 feet at the mills of L. Doolittle. No town in the State can compete with Wausau in the manufacture of lumber, either in quantity, or quality.—*Central Wisconsin.*

☞ There are now about 180 men employed at the saw mills in this place—in the mills, and measuring and rafting lumber, exclusive of the number required to run the lumber to market.—The mills run night and day, and the fleet of logs they work up every twenty-four hours, would keep a "down east pocket mill" cutting a year. —*Central Wisconsin.*

THE TURN VEREINS.—The torch light procession of the Turn Vereins, last evening, was a splendid affair.

The presentation in the Capitol Park, this forenoon, and the gymnastic exercises this afternoon were witnessed by great crowds of people and elicited much interest.—*Madison Journal.*

TO CLEAN SILK.—Pare and slice thin three washed Irish potatoes. Pour on them a half pint of boiling-water, and add an equal quantity of pure alcohol. Sponge the silk on the right side, and when half dry iron it on the wrong side. The lighest colored silk may be cleansed and brightened by this process; also cloth, velvet, or crape.

Business the past week has not been as active, in some respects, as might have been expected at this season. A great many merchants are complaining, and with reason, of the delays of their goods, expected by way of Buffalo, caused by the continual breaks in the Western Division of the Erie Canal. Many thousands of tons of merchandise destined for this city and State, and for Iowa and Minnesota, are on the canal, on the way, but thus far unable to reach Buffalo. The loss falls heavily not only on the owners of the goods, but upon the Transportation Companies, who had largely increased their facilities for bringing goods forward with despatch.

In produce, prices have been generally lower, but at the close of the week, with some concession from the highest views of holders, prices of wheat rose again to the figures given below, with some activity in the market.

Corn and oats are lower.

Hay has fallen considerably from the highest figures.

Marine Intelligence.

COLLISION.—The schooner Andes, bound for Chicago, came in collision with the schooner Handy Warner, bound for Buffalo, off Beaver Island, on Monday, the 1st inst. The Andes was beating against a head wind, and through some cause which we were unable to learn, came in contact with the Handy Warner, receiving a blow that stove in her hull, and otherwise injured her, so that she commenced sinking. This occurred at a distance of about four miles from Beaver Island, and she immediately made for that harbor. She arrived, much water-logged, and sunk in some twelve or fourteen feet of water. Captain Dies immediately left for Buffalo on a passing vessel, to procure a steam pump, with the intention of raising her. The estimated loss is $5,000. We did not learn the description of her cargo.—*Detroit Free Press, June 5th.*

ANOTHER NEW VESSEL.—On Thursday last a large and splendid schooner was launched at Coldwater, Georgian Bay, and christened in due style the *Indian Queen*.—She is a three master, 145 feet long, 26 feet beam, and 13 feet depth of hold, capacity 13,600 bushels wheat.—She was commenced last fall by Mr. Macfie, the builder of the *Bay of Toronto*, &c., and finished by Mr. McCord; cost about $16,000, and made of the very best oak. She is owned by our enterprising fellow-citizen, J. C. Fitch, Esq., who intends placing her on the Chicago and Collingwood trade, and is now taking in a load of lumber at the mouth of the Severn. She is commanded by Captain McDonald.—*Toronto Globe.*

KEEPS CONSTANTLY ON HAND a large assortment of mahogany, black walnut, and other wood Coffins, together with Fisk's Metalic Burial Cases.

I have the agency for the sale of Crane's Metalic Burial Casket, an entirely new patent, which for beauty of style and finish cannot be surpassed. I ask attention to them, as suited to the wants and tastes of a very considerable class of the community, which the style and arrangement of Fisk's case do not meet. This casket permits a view of the entire body after it is enclosed, the top being composed of a beautiful French plate glass, sufficiently strong to resist any internal or external pressure, and a covering of a beautiful, chaste metalic plate.

The office of the Forest Home Cemetery Company is at my place, where I have the plats of the grounds. I am always ready to accompany patrons to the Cemetery to select lots or places for burial, and can be found at my place of business day or night. Coffin trimmings of all kinds for sale.

THE NEW CITY DIRECTORY.

OWING to the large increase of names for the new Directory over any previous year, and the extreme tardiness with which *removals* and *changes* have been handed in since our Canvassers completed their task; together with the great *rush* of other work in the office of the *Sentinel*, where the Directory is being printed, and an earnest desire on the part of the publishers to send forth a work which will alike be creditable to themselves and the City they have deemed it advisable to notify their friends that it will be impossible to issue the Directory before the *first day of July*, at which time the books will be ready for delivery. Meantime, they trust that every person who has been overlooked by our Canvassers, or has changed his residence, place of business or occupation will hand in such change to the *Sentinel* office immediately.

☞ Advertisers who have engaged space in the pages of the Directory, will please hand in their favors at once, as that portion of the work is already far advanced.

Destructive Fire.

Shortly before six o'clock last evening, a fire broke out in the loft of the corner building in the four story brick block, on the corner of Spring and West Water Streets, Fourth Ward. Before the alarm was fairly sounded, Supply Hose Company and Engine Co.'s Nos. 1 and 5 were on the ground, ready for action. There were no ladders, however, of sufficient length, to reach the upper stories, and while waiting for those, the flames gained headway and soon burst out of the windows on the West Water street front. Several powerful streams of water were soon brought to bear, and hose carried up on the roof of the block, and after a half hour of vigorous effort the fire was stayed. Not so the water, which was poured into the block, in unnecessary quantities, for some time after all danger from fire was over; the consequence being that the damage from water was three or four fold that from fire.

The block was occupied by Messrs. BOYD & LEDYARD, J. H. TESCH, LEWALD & DANNENBAUM, and J. A. BURTSCHY. Mr. J. L. PEIRCE occupied the loft over BURTSCHY's store; the third story was used for sleeping rooms, and on the second were the offices of the Judge of Probate and others. Mr. J. F. BIRCHARD occupied two floors over TESCH's Drug Store, and had them filled with chairs, sofas, &c.—The block belonged to I. E. GOODALL, Esq., and as the fire was confined to the roof and upper stories of the two corner stores, the damage cannot exceed one or two thousand dollars and is fully insured. Mr. BURTSCHY's goods were removed in time to escape any serious damage. Mr. BIRCHARD's suffered both from water and smoke; as did those of Mr. TESCH, LEWALD & DANNENBAUM, and BOYD & LEDYARD, tho' there was no fire near them. The loss on the building is about $1,500, and on goods, by water, from $5,000 to $10,000. The fire took in the loft over Burtschy's store, where Mr. PEIRCE had a large quantity of rags, batting, old cloth, feathers, &c., piled away in one corner. It is supposed to have been accidental. All the parties, we believe, are fully insured in home or foreign companies.

The Firemen worked with a will, but with more zeal than discretion. A vast quantity of water was thrown into the block, long after the fire was entirely conquered. This should be looked to, since water is almost as destructive to Dry Goods, Drugs and Groceries, as fire would be. A little more discipline in the Department, and a little less "noise and confusion" at fires, would not be amiss.

Mr. GOODALL, after the fire was over, with characteristic liberality, handed Chief Engineer SCHULTZ a check for $100, as his thanks to the Fire Department for saving his block. Mr. BELDEN, of "the Home," and Messrs. BOYD & LEDYARD thoughtfully supplied the Firemen with refreshments.

CORONER'S INQUEST.—An inquest was held yesterday morning at Justice Bode's office in the Second Ward, upon the body of Matilda Hillebrand, which was found in the River on Saturday last. The jury of inquest consisted of Frederick Heinemann, Henry Hilgenberg, William Roesler, Werner Trimburn, John Becker and Peter Huegin, whose verdict was that the deceased, Matilda Hildebrand, on or about the 31st day of May 1857, voluntarily drowned herself in the Milwaukee River.

Dr. Neuman examined the body, but found no marks of violence whatever, and was also of opinion that the deceased committed suicide by jumping into the Milwaukee River. This is an exceedingly mysterious affair. The girl was about 17 years of age; of good moral character, and very good disposition. Her mother, who is living with her son-in-law, with whom the girl was also living, could assign no reason for her putting an end to herself, but states that she had been in an unusually melancholy mood, for several days before she was missed from home.—Temporary insanity probably lead her to commit the dreadful deed.

Sunshine.

"Blest power of sunshine! genial day,
What balm, what life is in thy ray!
To feel thee is such real bliss,
That had the world no joy but this,
To sit in sunshine calm and sweet,
It were a world too exquisite,
For man to leave it for the gloom,
The deep, cold shadow of the tomb."

Well, we have had our share of it for the last three days until we verily believe, if Tom Moore had ever felt such sunshine as we had yesterday, about noon, he would have thought it anything but "real bliss,"

"To sit in sunshine calm and sweet!"

But we must not complain too much, as we have been shrieking about the cold weather for the last two months; therefore it would appear unreasonable to complain now about the warm weather. But as we pen this, a dark cloud comes over the sun—there is a shower evidently coming, which will probably modify the temperature. The sun has now hidden his face, possibly because we were inclined to find fault with him! Well, we shall say no more until he shows himself again.

THE SAME OLD NUISANCE.—We trust that the Common Council will speedily take action relative to compelling vessels to get through the bridges with some regard to the convenience of citizens. The nuisance is one which cannot be easily borne much longer. It is too much for human nature to bear, to stand half an hour at an open draw, and be abused by the crew of a vessel, they sitting down the while, with folded arms, "waiting for the hurry of the people to be over," and coolly telling them so.

THE TIDE OF TRAVEL.—The morning train from Chicago, on the Lake Shore Railroad yesterday, consisted of three Emigrant and four first class Passenger Cars, all well filled. There were 130 German Emigrants, healthy, well clad and substantial looking, who had come from the Old World, through Canada, to seek homes in Wisconsin. As many more were expected by the afternoon train. The morning train brought an accession of three, or four hundred to the population of our State. So grows Wisconsin!

BOY LOST.—On Friday evening last a German boy, named Conrad Ward, eight years old, was missed from the house of his parents, on Huron, between Jackson and Van Buren streets, and has not been seen, or heard from since. He is of a dark complexion, rather small for his age; had on a blue jacket and pants, with a glazed belt, and was barefooted. Any information respecting him will be thankfully received by his anxious parents.

GROWING WEATHER.—A fine thunder shower passed over our city Sunday night and another yesterday afternoon. Under the influence of these frequent rains and warm sunshine, vegetation advances with magic celerity.

STABBING AT THE ALMS HOUSE.—A maniac got loose at the County Farm Buildings Sunday night and before he could be secured, stabbed the overseer and three of his assistants, one of them, it is feared, dangerously.

CITY LAND OFFICE.

SALE AT PORTAGE CITY.

AGAIN and for the last time we invite public attention to the sale of lots in Portage City, which is to commence on Friday of this week, at Mann & Williams Land Office, in that place.

There will never again occur a season so favorable for making investments in property of this kind as the one on which we are now entering. The future of almost every town in our State can now be predicted with much certainty, as the different elements on which they severally depend for their growth have become more clearly developed. To those who already appreciate the immense advantages of Portage City, and who see in her lines of roads and in her fine navigable river a sure promise of future greatness, we have nothing to say, their own sagacity will teach them to "pitch in and win." To strangers, however, and to those who are seeking new homes and new fields for their enterprise and industry, we say look well at this spot before going further—survey carefully the premises which it holds out, and if you think well of it, seize the opportunity now offered of procuring some choice lots in one of the most flourishing cities of our State, where property is rising rapidly in value in order to meet the wants of its growing population. je9 OGDEN & WALL.

C. H. LARKINS ADDITION.
FIRST WARD.
HOUSES FOR THE PEOPLE

THE spirit of speculation which in other parts of the city is raising the price of property so high that no man of moderate means can afford to purchase a lot, has as yet had but little influence on this part of the 1st ward, where this beautiful Addition is located. On this account alone it should recommend itself to the attention of those who desire to secure a family homestead. This, however is but one of its recommendations, for its high and commanding situation on the river bank, the beautiful lay of the land, the improving neighborhood, and its proximity to the business part of the city, all unite in pointing to it as the spot above all would like to purchase and build.—

Maps can be had at our office.

A public sale of the lots will be held at the City Auction Room on the 24th.

RUSSELL'S PATENT MASTIC ROOFING.
Patented February 12th, 1856.

THE Mastic Roofing has been thoroughly tested for the last four years, and found in every respect to be all and even more than was represented, excelling by far all others now in use. The said Mastic can be applied to steep and flat Roofs. [illegible]

We are well aware, that in offering a new invention to the public it must meet with some opposition, but it shall stand or fall upon its own merits. Our preparation is entirely different from any before known. We use a heavy Canvas, and saturate it with a waterproof compound before laying on the roof. On this we put a heavy coating which also renders it

FIRE-PROOF.

By this preparation it makes a much better and more durable Roof than any other Cement Roofing now known.

For References see Circulars, and the Roofing can be seen on Alderman Fleischmann's Candle Factory, and on the Phoenix Building.

The above Invention was made by C. C. Hoff, of Medina, N. Y. The Right and Interest to said Invention was purchased by E. P. Russell of Medina, N. Y. and letters Patent were obtained by him on Feb. 12th, 1856, and was awarded the first Premium and Diploma at the Albany Co. Fair in the Fall of '56. We are authorized Agents for the sale of Town and County Rights in the West. Those who may wish to engage in a very profitable business with a small capital are cordially invited to call. ARCHITECTS AND BUILDERS

W. E. CHILDS & CO.,
New Roofing Material!

PATENT FIRE AND WATER PROOF
ELASTIC CEMENT ROOFING!

THE UNDERSIGNED are prepared to contract and put on in this city and throughout the state of Wisconsin, W. E. Childs & Co.'s elastic Fire and Water Proof Cement Roofing, it being the only article yet invented that will successfully resist the action of the atmosphere in every climate. It is perfectly *Fire and Water Proof*—is a non-conductor of electricity, and in point of durability it is equal, if not superior to any Metallic Roofing. It is perfectly *elastic and pliable*. It contracts and expands with the change of the atmosphere, and will neither evaporate, crack, melt or run; and there can be no question of its *durability*.

This Roofing is Practically Imperishable.

It will perfectly resist any ordinary external exposure to fire, as is abundantly testified, and we can warrant it water proof.

We will engage to lay it on over ordinary good sheathing, old shingles, tar and gravel, tin, zinc, copper, or iron roofs—it making no difference how steep or flat they may be—for six dollars per one hundred square feet. It will also be found to be the best thing ever invented to cover the decks of vessels, Rail Road cars, depots and bridges, and to cover or mend old leaky tin, tar and gravel roofs, or to use around chimneys, scuttles, dormer windows and gutters, where the tin or other metals are rusted through.

This cement can be put on to last which, as seen, that will form a perfect adhesion to the object to which it is applied, such as wood, metal, brick or stone. Tin and other metal roofs can be painted over with it at about one-half of three dollars per ten feet square, which will cover over a far more durable than paint. As the roof is perfect (without a joint in it) it prevents no chance for fire to communicate, and any light and blaze will burn out without igniting. It has been generally introduced in New York, Boston, Philadelphia and other large Eastern and Southern cities, and has met with general adoption throughout the Western cities, and having superseded all others at Cincinnati, where it was first used, and where there are many roofs that were put on three years ago, all of which are now perfect.

We invite all who are building, and also those who wish their roofs repaired, to call at our office, No. 249 Main Street, 1st door North of Wisconsin, and to examine samples. We refer to the following gentlemen:

CINCINNATI, May 5, 1857.

Messrs. J. CARLISLE & CO., Milwaukee, Wis.—

In answer to your inquiry upon the merits of your W. E. Childs & Co's Patent Elastic Fire and Water Proof Cement Roof," we take great pleasure in making the following statement:—We have been engaged practically all our lives, in building, and are well acquainted with all the Patent Roofing generally, and extensively used in one with the current buildings of the day. We are now satisfied, from a scrutinizing investigation, that your roof is the very best of which we have any knowledge, (not excepting metal roofs of any kind) because of its extreme lightness in weight and elasticity of texture. We are recommending it to all for whom we build. From a specimen of two years standing which we have seen, we are satisfied that it is practically imperishable, and as far as weather influences are concerned, will out-last the most substantial building. Its fire and water proof qualities are unquestionable. Yours respectfully,

J. & D. DeCAMP, Builders.

CINCINNATI, 5th Month, 5th Day, 1857.

Messrs. CARLISLE & Co.,

You having requested my opinion about W. E. Childs & Co's Patent Elastic Cement Roofing, in answer to your request, I can state I have used the Cement in several buildings of my own, which have stood the test of the hottest and most severe weather, and the roofs have not yet cracked, being effected, I give it as my decided opinion, that it is the best and most perfect roof now in use. Among its desirable qualities is that of being so complete a water-tight around the firewall, hatches, chimneys, &c., and clear from danger of fire by sparks or coal flames.

EZRA BAILY

OFFICE OF THE CIN. HAMILTON & DAYTON R. R. Co.,
Cincinnati, May 1st, 1857.

Messrs. J. CARLISLE & Co.—

Dear Sirs:—My opinion has frequently been asked of W. E. Childs & Co's Patent Cement Roofing. I have no interest in the article, directly or indirectly, but feel a desire to see a good thing generally introduced.

During the past year I have used it on my Main street building, and find it a very great improvement on all cements heretofore in use in our city. Many of our first class buildings have recently been covered with it, and I have heard many of the owners speak in high praise of the article. We are at this time covering some of our cars with this cement.

Yours truly,
S. S. L'HOMMEDIEU,
President of Cin. & Ham. Dayton R. R. Co.

CINCINNATI, May 4th, 1857.

This is to certify that we have used W. E. Childs & Co's Patent and Fire Proof Cement, on the Passenger and Freight Cars of the Cin. Hamilton & Dayton R. R., and find it to answer the purpose better than any kind of roofing we have ever tried. I would recommend it to all Railroad companies as the most desirable and safe roofing that can be applied to the roofs of Passenger or Freight Cars.

DANIEL McLAREN,
Sup't of Motive Power Cin. Ham. & Dayton R. R. Co.

CINCINNATI, May 1st, 1857.

Having examined the Cement Roofing patented by W. E. Childs & Co., and now being put on by them, I feel confident in stating that it is superior to any roof ever before tried in this city. It presents a neat clean surface, is very elastic, and seems to have all the qualities the inventor claims for it.

JAMES W. McLAUGHLIN, Architect.

OFFICE OF BUCKEYE STATE IN. Co.,
Cincinnati, Dec. 16, '56.

To all whom it may concern:

This is to certify that I have examined specimens and roofs of W. E. Childs & Co's Elastic Fire and Water Proof Cement Roofing, and believe it to be eminently superior to any other kind of Roofing in use. I was an eye-witness of a severe trial of one of these roofs in case of a large volume of flame from an adjoining building, which struck directly upon the roof and covered it for nearly half an hour. It stood the trial beyond all expectation and saved the building. Yours,

T. M. HASKELL,
President Buckeye State Insurance Co.

CINCINNATI AGENCY, ROYAL IN. Co.,
February 6, 1857.

I have examined W. E. Childs & Co's Elastic Fire and Water Proof Cement Roofing, and as far as I can judge, consider it a great invention, and am willing to insure buildings thus protected upon the same terms as I insure those covered by metal.

JOHN S. LAW,
Agent Royal Ins. Co., London and Liverpool.

And many other testimonials that can be seen by calling on us.

The Cement will be furnished in large or small quantities to those wishing it, residing out of the city, with printed directions for applying it.

Orders sent to us through the Post Office will be promptly attended to. Application may be made to us for the purchase of rights in Counties or towns throughout the State, in which to use the above roofing.

SALOM'S
MERCANTILE COLLEGE!
A Perpetual Ticket for $25!

GENTLEMEN desirous of acquiring a thorough Mercantile Education, are assured that the advantages presented at this institution are unsurpassed.

The Principal takes this opportunity to acknowledge the courtesy of several of the most distinguished Shipping and Jobbing Houses in the East, who recently allowed him to examine their books, besides explaining many original plans for economizing labor, which, adopted as in some instances after the experience of half a century, may be justly designated the *ne plus ultra* of the art.

These advantages, grafted upon MR. SALOM'S long practical experience in a variety of Counting Houses, have enabled him to elaborate a novel and valuable series of transactions, introducing all the great heads and ramifications of mercantile routine to be actually developed by the student. A perpetual ticket confers the privilege of instruction in Book-Keeping at all times, as well as tuition in Writing, Mercantile Calculations, Law, Correspondence Forms, &c.

The Surveying and Mathematical department is in progress during the day and evening.

MEDICAL.

R. R. R.

THE MEDICAL TRINITY.

EACH of Radway's Three Remedies possess special curative powers over certain diseases; and when either the Ready Relief, Renovating Resolvent, or the Regulators, are used for the certain class of diseases they are specially designed for, the system undergoes a quick transformation from its diseased condition to healthy and happy state of existence.

RADWAY'S READY RELIEF.

This remedy is to be used externally, or taken internally, for all pains, aches and infirmities. In a few minutes it stops the most torturing pains, subdues all inflammations and cures the worst cases of *Rheumatism, Lumbago, Gout, Paralysis, Neuralgia, Tooth-ache, Burns, Sprains, Strains, &c.* It restores the *lame, infirm and crippled* to soundness and vigor. It is likewise a certain cure and preventive for *Fever and Ague, Scarlet Fever, Smallpox, Croup, Hoarseness, Colds and Influenza*. Whenever you feel any unpleasant or painful symptoms, take a dose of Radway's Ready Relief, or apply it to the parts where the pain is located; in a short time you will enjoy ease and comfort.

Bear in mind, there is no pain so severe but that Radway's Ready Relief will stop, and no system so crippled with infirmities but that the R. R. R. Remedies will restore to sound and vigorous health.

RADWAY'S REGULATORS.

The discovery of these wonderful pills establishes a new era in purgatives, and a new principle in the science of medicine. In taking these pills no griping pains or sickness at stomach is experienced; they operate naturally, leaving the bowels, liver and other organs in a natural condition.

They insure those who take them a good appetite and a healthy digestion.

Each pill that is taken gives new life to the blood; they purify it, take from it all impure deposits and equalize its circulation.

One or two doses of Radway's Regulators will entirely remove all distressing symptoms of Dyspepsia, Jaundice, Nervousness, Indigestion, Costiveness, Liver Complaint, Billiousness, Melancholy, and will cure all organic diseases, either in man or woman. Ladies troubled with irregularities or weakening discharges, may rely upon a prompt cure and regular periods if Radway's Regulators are taken.

PICTURE OF HEALTH AND BEAUTY.

A few doses of Radway's Regulators will insure a clear, fair, pure and healthy skin and a rosy complexion. They give to those troubled with weak dull, yellow eyes, a clear and brilliant appearance. Radway's pills give a natural beauty to the face, eyes and head; and the use of the Ready Relief as a wash for the teeth and an aromatic for the breath, will change the most disgusting foul breath to sweetness, and the blackest teeth to Parian whiteness.

One to ten of Radway's Regulators is a dose; they never do injury, but always do good.

CONGESTIVE DISEASES, APOPLEXY, TERMINATION OF BLOOD TO THE HEAD.

Persons of full blooded plethoric habits are more subject to congestive diseases, headaches, rush of blood to the head, than those of a lean habit; bleeding in these cases is highly detrimental, nor does this practice lessen the danger; the difficulty is not caused by too much blood but by its disturbed circulation, and the irregular action of the heart. Now a dose of Radway's Regulators will correct all these difficulties—they will *correct* the action of the heart, liver, and all other organs to a natural and regular action, and will immediately *equalize* the circulation of the blood. Mere purging in these cases will only aggravate the disease.

Radway's Regulators not only *regulate* the bowels, by which all diseased and injurious matter is purged from *the body*, but they control the whole system, and, *force*, each and every organ, the heart, brain, liver, nerves, bowels, skin, pancreas, bladder, kidneys, stomach, lungs, throat, blood, and every tissue in the whole organization, to a healthy and regular action. They infuse new life throughout the whole system; their action is not confined to any local part of the stomach, like common pills, but they search out diseased action wherever it may be hidden, and expel all diseased humors and deposits from the body. In a few hours after taking a dose of these life creating pills you feel refreshed and invigorated from head to foot. We have known the dispirited and melancholy take a dose of Radway's Regulators *just to feel good—they make one feel so happy.*

RADWAY'S RENOVATING RESOLVENT.

Cures Humors, Salt Rheum, Scrofula, Ulcers, Nodes, Tumors, Fever Sores, Skin Eruptions, Blotches, Bronchitis, Dyspepsia, Gout, Dropsy, Syphilis, Consumption, Apoplexy, &c., and all constitutional and chronic diseases, either inherited by hereditary transmission, or inoculated by exposure or otherwise.

There is no remedy in the world that will work such miraculous cures in old diseases as Radway's Resolvent. It changes the whole human body—reproduces new and healthy blood.

☞ Bleeding from the lungs—Radway's Renovating Resolvent will, in a few minutes, check Hemorrhage from the lungs or throat. In cases where the patient coughs up clots of blood or pus streaked with blood, Radway's Resolvent will soon remove the difficulty.

☞ Sarah Hammond, of 196 East Thirty-Second st., had a bad cough for two years, she coughed up sometimes half a pint of blood during the night. She was cured in seven days by the Relief and Resolvent.

☞ A sore leg of 21 years cured in three weeks, by Radway's Relief. Mr. T. H. Kilgo, a merchant of high standing in Dahlonega, Ga., says:—"That a gentleman who, for 21 years, had been afflicted with a sore leg, that resisted every kind of treatment, was effectually cured in three weeks by Radway's Ready Relief, Resolvent and Regulators."

GENERAL COMPLAINTS.

If you catch a sudden cold, get a sore throat, or become afflicted with influenza, a dose of Radway's Regulators, and an application of the Ready Relief, will free you from all pain and uneasiness. In a few minutes after the Relief is applied no soreness will trouble you. If afflicted with headache, either nervous or from foul stomach, Radway's Ready Relief, and a dose of Regulators, will remove all pain from the head, and restore health to the nervous and afflicted.

Radway's Ready Relief and Regulators always cures *Dyspepsia* in its most distressing forms, and nervousness with all its horrors.

☞ WHOOPING COUGH.—Thousands of cases of Whooping Cough have been cured in a few days by the Resolvent and Relief, and if the Whooping Cough is prevalent in the neighborhood, those who take half a teaspoonful of Ready Relief in a little water, once or twice per day, will never catch it. Radway's Relief destroys the infection of the "Whooping Cough."

☞ TOBACCO CHEWERS.—Those who have become reduced by the effect of tobacco, or the indulgence in spirituous liquors, who feel the horrors of incapacity, weakness, sterility, and the *infirmities* which a fast and intemperate, luxurious and lustful course of life inflicts upon its victims, will find relief from these horrors, and sure restoration to health, strength and vigor, by the use of Radway's Relief, Regulators and Resolvent.

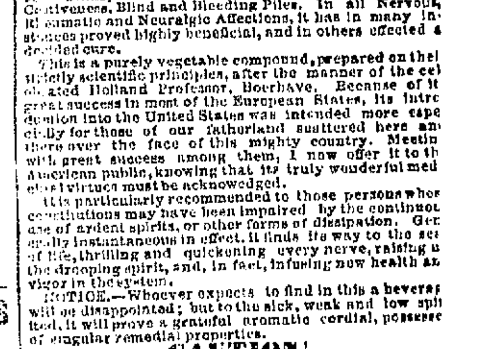
BOERHAVE'S
HOLLAND BITTERS



THE CELEBRATED HOLLAND REMEDY FOR
DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND
FEVER AND AGUE,
And the various affections consequent upon a disordered
STOMACH OR LIVER,
Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in many instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on the strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find in this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

CAUTION!
The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.
